

Slime

Aim: Make squishy non-toxic slime that hardens in your hands when you squeeze it, but flows like a liquid when you pour it.

Hypothesis: *(record own in exercise book)*

Materials:

- 25mls PVA
- 10mls Borax solution
- 2 drops of Food Coloring
- Measuring cylinders
- Plastic cup and pop sticks
- Zip-lock bag

Method:

- 1.Measure 25mls of PVA into cup using measuring cylinder, pour into plastic cup
- 2.Add 10mls of Borax measuring cylinder, pour into plastic cup
- 3.Add 2 drops of food colouring
- 4.Mix well with pop stick and pour into zip-lock bag
- 5.Take home slime in plastic bag

Now write
